

LTC (Ret) Steve DeLellis retired in 2019 after more than 36 years on Active Duty in the Army. He has spent his entire career in Army Special Operations, with more than 16 combat deployments in six conflicts. Steve previously served as the Deputy Surgeon for the XVIII Airborne Corps, Chief of Medical Training for the U.S. Army Special Operations Command (USASOC), with oversight of the Joint Special Operations Medical Training Center (JSOMTC), and as the Deputy Command Surgeon for the United States Army Special Operations Command. He has managed the longest continually running and continuously funded Traumatic Brain Injury surveillance project in the Special Operations community and has co-authored more than 30 articles on mild traumatic brain injury in Special Operations Forces. Steve currently serves as the Executive Director of The Geneva Foundation's Fort Bragg Research Institute.
