

Partnering with the Biomedical Advanced Research and Development Authority (BARDA)

Christopher Houchens, Ph.D.

Director, Division of Chemical, Biological, Radiological, and Nuclear (CBRN) Medical Countermeasures

Biomedical Advanced Research and Development Authority (BARDA)

Administration for Strategic Preparedness and Response (ASPR)

Support to the Warfighter Symposium, Chapel Hill, NC

June 14, 2023

Unclassified

ASPR's mission:
Assist the country in
preparing for,
responding to,
and **recovering**
from public health
emergencies and
disasters.

The BARDA Model

BARDA develops and makes available medical countermeasures (MCMs) by forming unique public-private partnerships to drive innovation off the bench to the patient to save lives.

Flexible, nimble authorities

Multi-year funding

Cutting edge expertise

Facilitate partnerships

Promote innovation

Opportunities to Partner with BARDA

Contracts and Other Transaction Agreements (OTAs)

Non-dilutive funding; multi-year, multi-million dollar awards

Broad Agency Announcement (BAA): advanced R&D of MCMs for CBRN threats, pandemic influenza, emerging infectious diseases

Project BioShield (PBS): advanced R&D and procurement of MCMs for CBRN threats

EZ-BAA: <\$750K; EZ-BAA Plus up to \$20M
30-50% cost share; rapid review & award

Indefinite Delivery/Indefinite Quantity (IDIQ) Contracts

IDIQ performers provide nonclinical and clinical services and product deliveries under task orders

Solicitation: performers submit proposals when USG issues Request for Task Order Response

Incubators and Accelerators

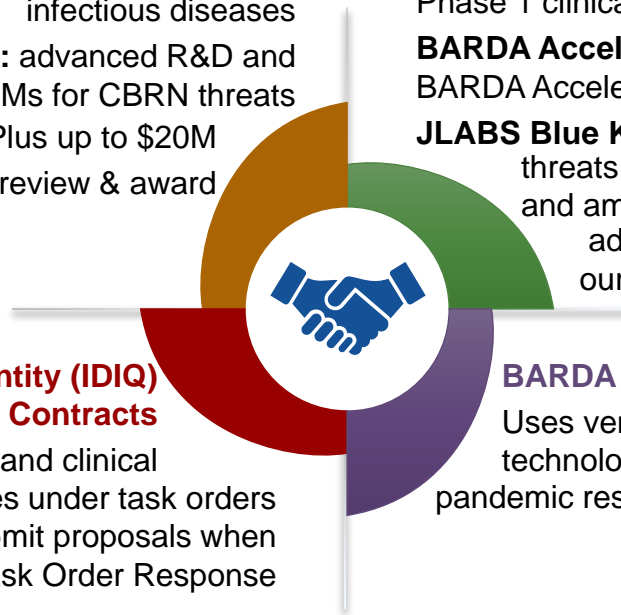

Combatting Antibiotic Resistant Bacteria Accelerator (CARB-X): partnership with Boston University and global funders to support early stage antibacterial R&D through Phase 1 clinical studies

BARDA Accelerator Network: watch for the launch of the BARDA Accelerator Network 2.0 late in FY23

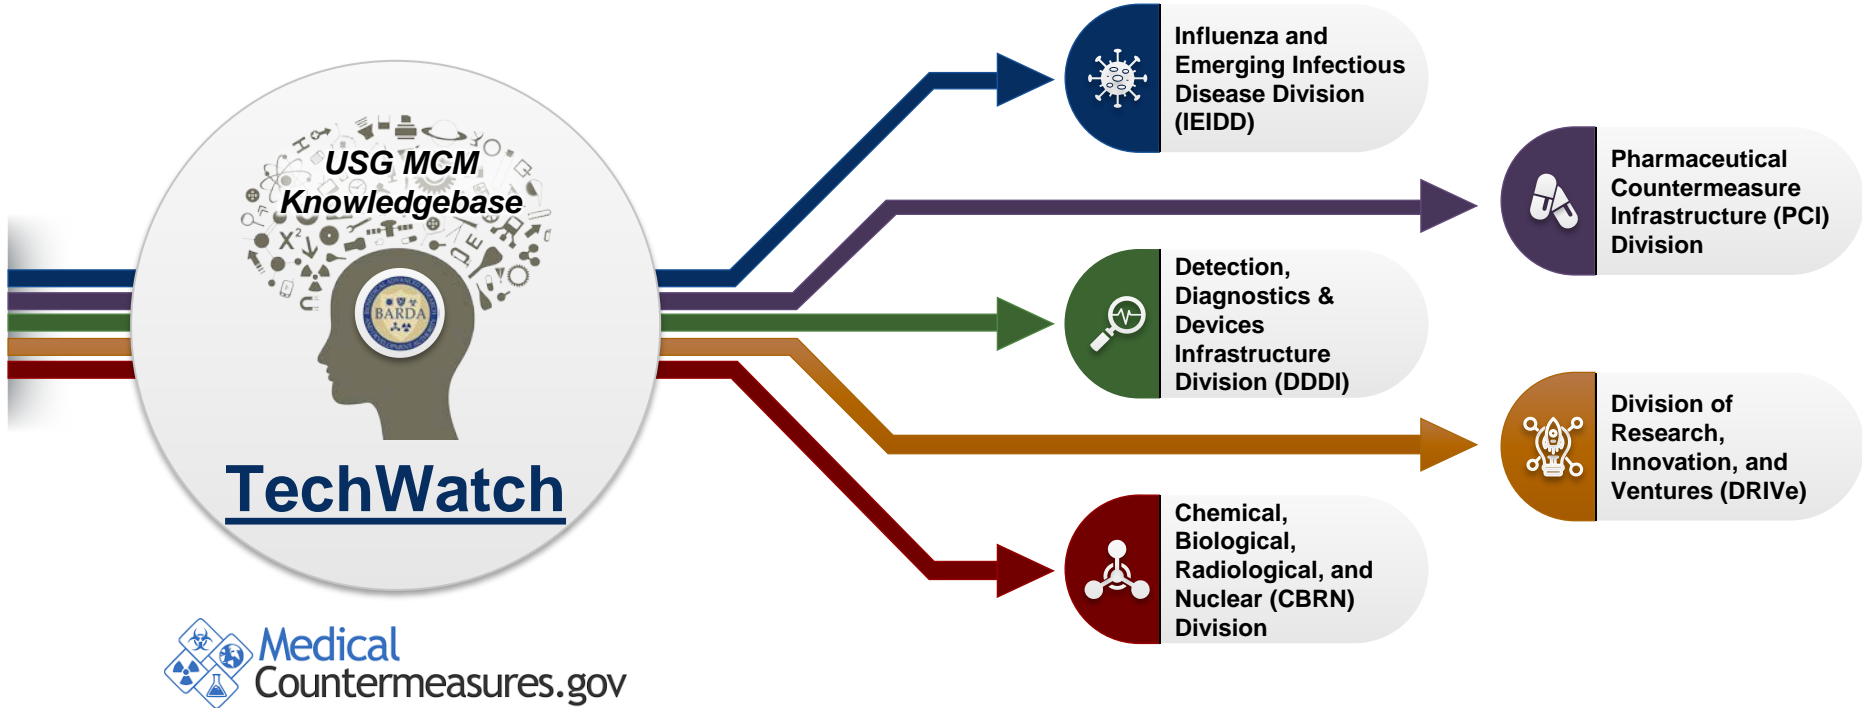

JLABS Blue Knight: anticipates potential health security threats, activates the global innovation community, and amplifies scientific and technological advancements to prepare for and respond to our rapidly evolving global health environment.

BARDA Ventures

Uses venture capital practices to invest in technologies to bolster global health security, pandemic response, and health emergency preparedness.

@BARDAGOV

Streamlining Partnership Opportunities – Potential 2023 Activities

Establishing National Biopharmaceutical Manufacturing Consortium (BioMaC) to enable rapid production of MCMs

Modernizing the Broad Agency Announcement (BAA) to update and simplify the process

Launching Rapid Response Consortium with structure, speed, and agility to respond to emerging threats

Advancing multiple legislative proposals to improve the way we do business

Additional 'pull' efforts
